On
07 January 2018

About CHESD
Centre for Health and Environmental Studies Dehradun has been working in the field of improving the health and environmental attributes throughout Uttarakhand by its various initiatives. The center regularly conducts awareness programs in the fields of Health and Environment connoting the governmental schemes and policies to the grassroots of Uttarakhand through its various research and developmental activities. It also provides free legal aid in the matters concerned with Health and Environmental matters or disputes.

About The Conference
The society and law are the two integral parts of a civilization. The society keeps on changing from day to day and so as the law from time to time and they both maintain the dynamisms in them. In order to study and understand this catalytic behavior a deep analysis and discussion is to be done on the various issues and trends of societal development to make a better futuristic oriented policy and regulation. This conference will be platform from where these issues will be addressed and analyzed by different delegates from all around the world.

Climate change raises significant social, environmental and legal challenges. The governance system applying to climate change is complex and multi-level. A central issue in international law and policy is how countries of the world should allocate the burden of addressing global climate change. Countries around the world are taking important domestic actions to help tackle the issue of climate change.

The immensity of global warming can be discouraging and depressing. What can one person, or even one nation, do on their own to slow and reverse climate change? The good news is that we know exactly what needs to be done to stop climate change - and the technologies we need already exist. With the right policies at national and local levels, we would be able to deploy them on a large scale.

About Dehradun

Nestled in the mountain ranges of the Himalayas, Dehradun is the capital of Uttarakhand. It is one of the most beautiful resorts in the sub mountain tracks of India, known for its scenic surroundings. The name Dehradun is a collection of two words "dera" meaning camp and “dun” meaning valley. Situated on the foothills of the great Himalayan, Dehradun is one of the most visited tourist destinations in India. Surrounded by beautiful hills, doon valleys and dense forests, city welcomes scholars and tourists to come and enjoy real world of nature.

Weather

Weather in Dehradun in July remains pleasant and the average temperature would be around 15-25 degree Celsius. You need to have woolen clothes in this season. Days are relatively warm. The month of January offers temperate climate suitable for hill station stays.

How to reach Dehradun

The nearest airport is Jolly Grant, 24 km from Dehradun city. It is connected among other places, to Amritsar, Howrah, Bombay, Delhi, Lucknow, Varanasi and other major cities.
